QUALITY POLICY

YAULI CHEMICAL LABORATORY

Yauli Chemical Laboratory, located in VOLCAN COMPAÑIA MINERA S.A.A.'s Carahuacra mining unit, carries out sampling, sample preparation and chemical analysis of polymetallic ore samples and concentrates for its clients in the Concentrator Plant, Metallurgical Laboratory, and Geology and Commercial areas.

Aware of its role in the company's control of operations and commercialization of minerals, Yauli Chemical Laboratory states its commitment to:

- 1** *“Carry out chemical assays on minerals, meeting the clients’ requirements, as well as legal and regulatory provisions, observing the methods implemented for the service.”*
- 2** *“Develop new activities with the participation and competent development of our personnel, pursuant to good professional practices, policies, procedures and quality documentation.”*
- 3** *“Meet ISO 9001:2015 guidelines and our code of ethics, ensuring the continuous improvement of our Quality Management System’s efficacy.”*
- 4** *“Establish, review and meet the objectives and goals arising from the application of this policy.”*
